Description: This workshop is useful for those interested in taking a refresher course about the Nurtured Heart Approach® (NHA) and for those learning about the approach for the first time. The Nurtured Heart Approach® (NHA) is a relationship-focused methodology founded strategically in “The 3 Stands™” for helping children (and adults) build Inner Wealth™ and use their intensity in successful ways. It has become a powerful way of awakening the inherent greatness in *all children* while facilitating parenting and classroom success. The essence of NHA is a set of core methodologies originally developed for working with the most difficult children. It has a proven impact on every child, including those who are challenged behaviorally, socially and academically.

Workshop Objectives:

1. Describe the conceptual framework of the Nurtured Heart Approach®.
2. Discuss the three stands of the Nurtured Heart Approach.
3. Demonstrate four ways to recognize and energize positive behaviors, within a cultural context.
4. Discuss how to effectively set and enforce clear limits when working with their children
